Summer School 2024

Registration Processes Offered Courses

Registration Processes allow you to create the processes through which students can be registered for their courses. You can specify when the registration is made available, which grade levels are included, who is allowed to fill out the registration, and more. You can add multiple processes if you have different rules for different grade levels.

Click on the **Offered Courses** tab to select which specific courses will be made available for this term.

It is recommended to completely set up this financial agreement process so that all fees and discounts are added before any individual agreements are generated from it.

Once an agreement is manually edited, or Finalized/Signed, it will no longer be automatically updated by changes to the financial agreement process it was made from. Editing rules for discounts and fees will have no affect on those agreements.

My new favorite?

Why should an Admin use Course Registration?

- Rapidly enroll Students one at a time
 - Helps to craft the schedule
 - Charge Fees
- Create Financial Agreements
(Ensure that they get signed and published)
